RE: Hamlet of Hume Sewer Improvement Area – Informational Meeting Notice

Dear Property Owner:

You are invited to attend an informational meeting regarding the proposed sanitary sewer improvements within the Hamlet of Hume Sewer Improvement Area.

This project was initiated following a recommendation from the Combined Allen County General Health District. Water quality sampling of drainage tiles and nearby tributaries identified conditions that constitute a public health concern and environmental pollution risk. As a result, the installation of public sanitary sewers is being advanced to address these issues.

The project is currently anticipated to be advertised for bids in late summer 2026, with construction potentially beginning later in 2026.

The purpose of this meeting is to provide affected property owners with an overview of the project and an opportunity to ask questions. Topics will include:

- Project boundaries
- Funding sources and financing structure
- Estimated costs to property owners
- Project schedule and next steps

Meeting Details:
